THE SCIENCE BEHIND FARADAY BAGS

Faraday bags are built on a simple but powerful principle of physics: **electromagnetic shielding.**

(••) Find the Right Solution

- Unlike basic storage pouches, our bags **block Wi-Fi, cellular, Bluetooth, and GPS signals** to prevent distractions.
- Generation Faraday offers **locking, magnetic, or velcro closures** on their faraday bags with innovative patented designs and flexible options for schools.
- With our **App Integration**, easily monitor phone bag usage and track activity trends to strengthen phone policy enforcement.
- We help you choose the right setup based on your school's goals and daily routines.

👁 Seamless Implementation

- **Setup and Training:** We provide hands-on guidance so schools can roll out the system in a way that fits their routines.
- **Ongoing Support:** Training materials and continued assistance are included for staff, students, and families.
- Our team remains available over time to offer continued support and keep everything running successfully.

GENERATION FARADAY APP

Seamlessly Monitor and Manage
Student Faraday Bag Usage

Smarter Monitoring and Policy Enforcement for Education

The Generation Faraday App is more than a monitoring tool. It supports schools with actionable insights, helping teachers and administrators enforce phone policies consistently and create focused, distraction-free environments.

Seamless Asset Tracking

- Link RFID tags and serial numbers to individual phone bags.
- Monitor faraday bag usage to track policy adherence.

Smart Dashboard and Reports

- Track average violations by day, week, or month and identify trends using custom date ranges.
- Schedule customizable reports to receive compliance insights on your timeline.

Enhanced Focus in Classrooms

- Quickly flag top violators to support timely, targeted interventions.
- Identify violation patterns to pinpoint when disruptions occur most often.

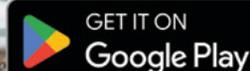

Customized Admin Insights

- Monitor student-level compliance data for informed decision-making.
- Identify behavior trends and top violators.
